** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report

V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement**1. Statement**

Novelty (N)	Claims 1 – 9	YES
	Claims	NO
Inventive step (IS)	Claims 1 – 9	YES
	Claims	NO
Industrial applicability (IA)	Claims 1 – 9	YES
	Claims	NO

2. Citations and explanations (Rule 70.7)

The following international search report citations have been considered for the purpose of this statement:

D1: DE 10132598 A

D2: EP 913532 A

D3: AU 76442/91 B (638573)

Novelty (N) Claims 1 – 9

The claims are novel in the light of D1 – D3 because none of the citations discloses a lifting lever for a cistern flush valve wherein one end of the lever (adapted for operative engagement with a flush actuating button) has first and second engagement regions which are relatively closer and farther to the pivot mounting such that initial movement of the button causes it to engage the second engagement region and pivot the lever through a first predetermined range of movement whereafter further movement of the button in the same direction causes it to engage the first engagement region and further pivot the lever.

Inventive step (IS) Claims 1 – 9

The claims involve an inventive step for the same reason above.

Industrial applicability (IA) Claims 1 – 9

The claims satisfy the requirements for industrial applicability.
